

Confirming Connectivity for Your Multi-Channel Encoding Monitor (MCEM)

The Nielsen MCEM contains a cellular interface to support connectivity exclusively to Nielsen for remote monitoring. The unit supports outgoing calls only.

The steps detailed below can be completed to confirm your station's MCEM is connecting to the Nielsen portal. If you experience any issues during these checks please contact Nielsen Audio Encoding Operations via email at encoding@nielsen.com or call our 24/7 encoding support line at 866-767-7212.

Steps for Confirming Connectivity

1. Verify the unit is properly installed, powered up, and running the latest firmware. The latest firmware can be found on the [Radio Engineering Client Portal](#).
2. Confirm the antenna is connected and is located in an area that has the best signal strength.
3. From the front panel LCD, navigate to the IP address.
4. In the browser address bar, type the IP address of the monitor and log into the MCEM using the credentials below:
 - a. Username: Station
 - b. Password: C0lumb1aMD
5. Navigate to the **Menu** dropdown

Monitor Status						Menu
Status	Entity	Channel Set	Audio Level	Encoder	Status Count	
OK		FM A	(4,4)	FM/Primary	1	

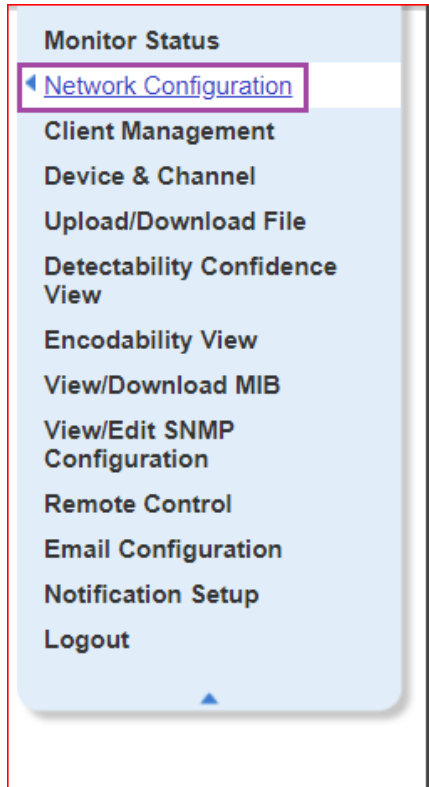

System Status		
Status	Code	Status Description
OK	298	The System Is Operating Normally

Hardware Status			
Serial Number	Temperature	Cell Signal	IP Address
L50	44.0 C	5.5	192.168.1.43

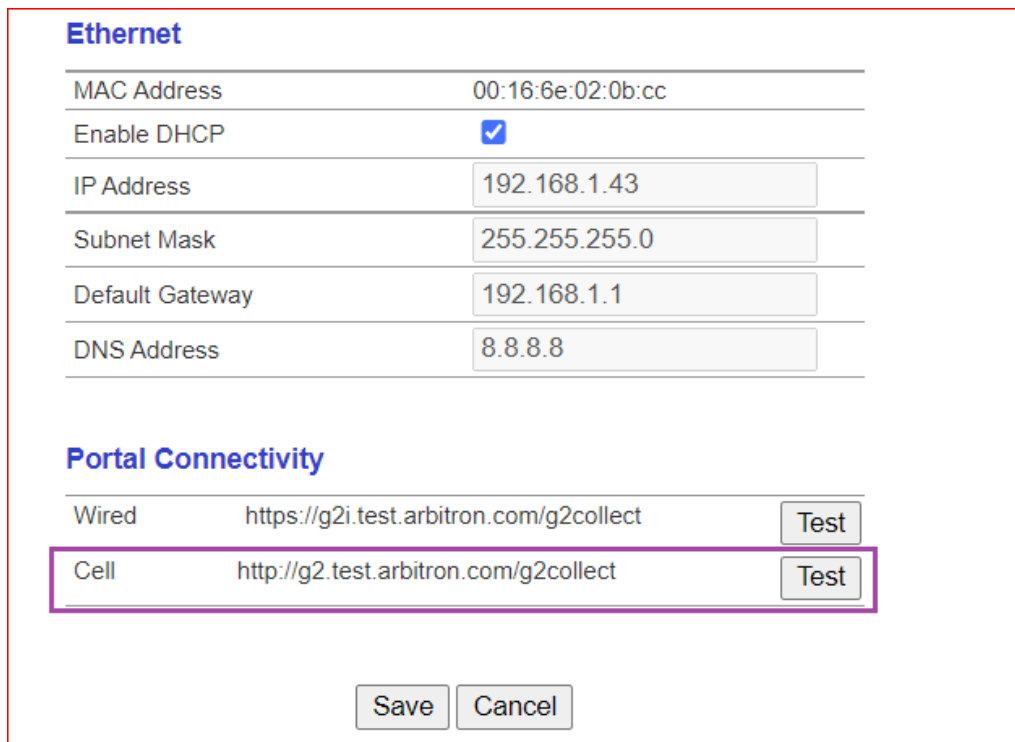

Miscellaneous Status	
Last Portal Upload Time:	
	23 Aug 2022 16:57:05 UTC

Version Information

6. Select **Network Configuration**.

7. Under **Portal Connectivity (Cell)** select “Test.”

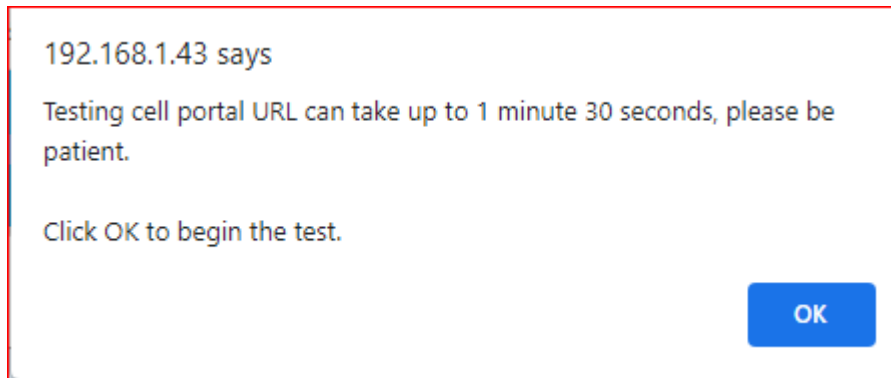

Ethernet

MAC Address	00:16:6e:02:0b:cc
Enable DHCP	<input checked="" type="checkbox"/>
IP Address	<input type="text" value="192.168.1.43"/>
Subnet Mask	<input type="text" value="255.255.255.0"/>
Default Gateway	<input type="text" value="192.168.1.1"/>
DNS Address	<input type="text" value="8.8.8.8"/>

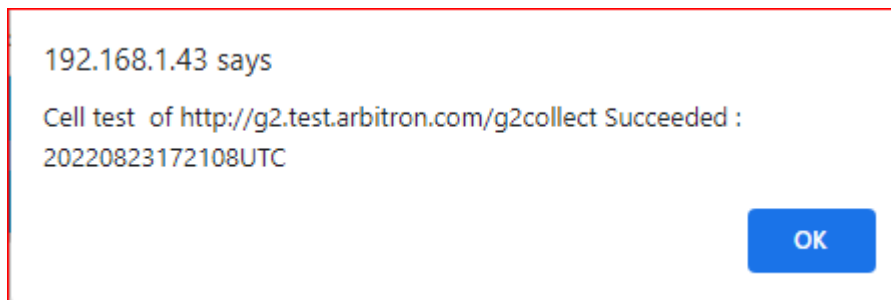

Portal Connectivity

Wired	<input type="text" value="https://g2i.test.arbitron.com/g2collect"/>	<input type="button" value="Test"/>
Cell	<input type="text" value="http://g2.test.arbitron.com/g2collect"/>	<input type="button" value="Test"/>

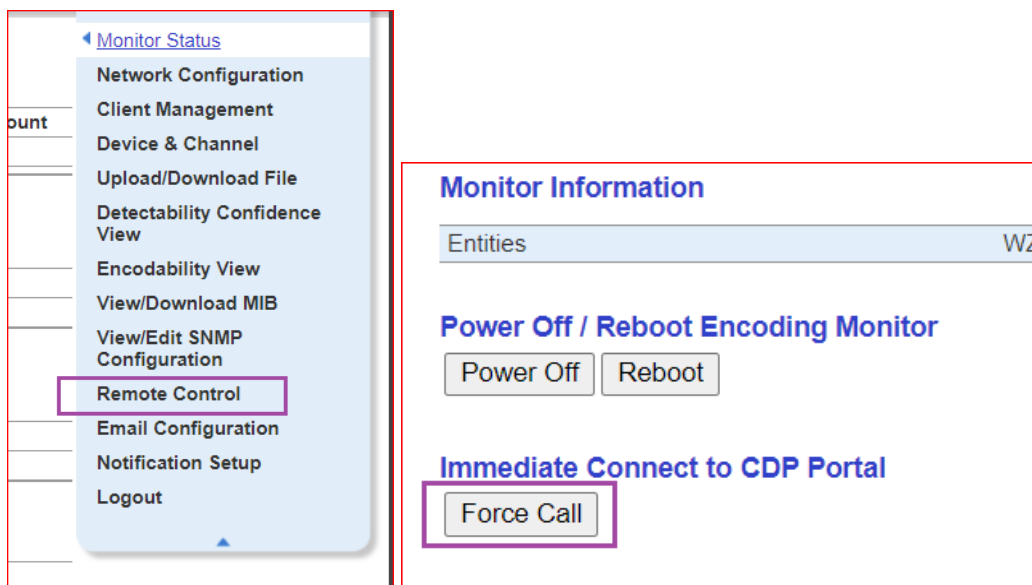

8. A message box will appear, click “OK” to begin the test.

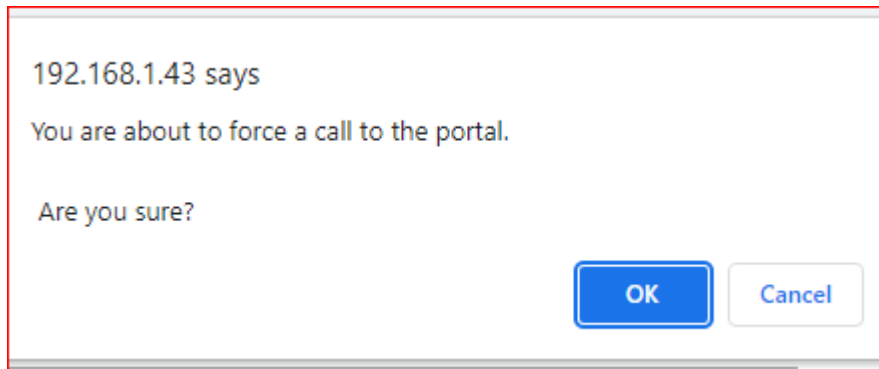

9. A message box will appear indicating if the cell test was completed successfully. Click “OK.”

10. From the **Menu** dropdown, select “**Remote Control**” and “**Force Call**.”

11. A message dialog box will appear, select “**OK.**”

12. Once the portal call is complete, verify the “**Last Portal Upload Time**” displays the current date and UTC time.

Miscellaneous Status	
Last Portal Upload Time:	23 Aug 2022 17:26:04 UTC

If you experience any issues during these checks, or have any questions, please contact Nielsen Audio Encoding Operations via email at encoding@nielsen.com or call our 24/7 encoding support line at 866-767-7212.

PPM Encoding equipment documents and manuals can be found on the [Radio Engineering Client Portal](#).
